

OUTSIDE THE CLASSROOM

Consider the Math

- > Identify Big Ideas
- > Articulate Lesson Goals

Plan Powerful Questions

- > Create open questions with scaffolds
- > Create parallel tasks with common questions

Consider Student Engagement

- > Determine readiness and interests

Learning Through Effective Questioning

INSIDE THE CLASSROOM

Consider the Math

- > Use responses to focus on the lesson goals

Pose Powerful Questions

- > Use and adapt open questions with scaffolds
- > Use and adapt parallel tasks with common questions

Respond to Students

- > Use questions that scaffold and challenge to personalize responses
